Part I

Sintassi di comandi

1 Regole sintattiche

Definizioni delle regole sintattiche.

1.1 assign

$\text{assign} ::= \langle \text{name} \rangle \text{“=”} \langle \text{add-expr} \rangle$

1.2 name

$\text{name} := \langle \text{name-start} \rangle \langle \text{name-suffix} \rangle$

$\text{name-start} := \text{“A-Z”} \mid \text{“a-z”} \mid \text{“_”}$

$\text{name-suffix} := \text{“0-9”} \langle \text{name-suffix} \rangle$

$\text{name-suffix} := \langle \text{name-start} \rangle \langle \text{name-suffix} \rangle$

$\text{name-suffix} := \langle \text{empty} \rangle$

1.3 add-expr

$\text{add-expr} := \langle \text{mul-expr} \rangle \langle \text{add-expr1} \rangle$

$\text{add-expr1} := \text{“+”} \langle \text{add-expr} \rangle$

$\text{add-expr1} := \text{“-”} \langle \text{add-expr} \rangle$

$\text{add-expr1} := \langle \text{empty} \rangle$

1.4 mul-expr

mul-expr := <expr> <'mul-expr1>

mul-expr1 := "*" <mul-expr>

mul-expr1 := "/" <mul-expr>

mul-expr1 := <empty>

1.5 expr

expr := <constant>

expr := <name>

expr := "+" <expr>

expr := "-" <expr>

expr := "(" <add-expr> ")"

1.6 constant

expr := <integer-number> <fract-number>

fract-number := "." <integer-number>

fract-number := <empty>
